

State Supplied No Cost Antiviral Medications

The North Dakota Department of Health will provide antiviral medications at no cost to individuals/families that meet one of the following defined criteria:

- Income 300% of poverty level and no medication coverage under Medicare, Medicaid, or private insurance.
- No medication coverage under Medicare, Medicaid, or private insurance and medical provider or public health representative believes client payment would result in significant financial stress to the client/family.

Family size	1	2	3	4	5	6	7	8	9	10
300% of Poverty	\$32,490	\$43,710	\$54,930	\$66,150	\$77,370	\$88,590	\$99,810	\$111,030	\$122,250	\$133,470

Pharmacies and medical providers can acquire no cost antiviral medications on a case by case basis by contacting their local public health unit or the North Dakota Department of Health Operations Center to make arrangements for delivery or to pick up medication.

Contact information for public health entities and the ND Department of Health is included in Attachment A.

All medications dispensed under this program (Tamiflu) must be documented on the form included as Attachment B. Completed forms are maintained by the local public health unit providing the medication.
